# Uniqueness

The Care Center is Louisiana owned and operated and is an integral part of the city of DeQuincy. The community offers tremendous support to our mission and is always eager to help when the need arises. Local musicians come over every Thursday to play music for our residents. Local religious organizations conduct services for our residents. Business owners donate products and services to enhance the quality of life for our residents. As you can see, the community is uniquely involved with the residents of The Care Center.

Our Resident Council plays an integral part in the day to day decisions concerning resident life. Their voice is very strong and always heard. They take ownership in the success of the facility.

All of us at The Care Center cordially invite you to come by and experience what we can do for you.

Personalized Care  
With a  
Loving Touch

# A Smile is Part of the Uniform

The Care Center of DeQuincy is a family oriented small town facility that creates a "Home Away From Home" environment for our residents. We are dedicated to providing our residents and their families with "Personalized Care With a Loving Touch". With 36 years of experience providing long-term care for the residents of the DeQuincy area, we know long-term care. Our focus is to assess each resident on an on-going basis and provide them with the appropriate physical, mental and emotional care that they deserve. The Care Center understands the emotional process of moving into your new home and we make every effort to make you feel comfortable and secure. Our focus is first to make you feel welcome, to place you with a roommate that you are compatible with and get you involved with the activities of the facility. At The Care Center your voice is always heard, your needs are always met and we make every effort to satisfy your reasonable desires. Your family is always invited and encouraged to "Just Drop In" for a visit, have lunch with you, or to take you out on an outing.

# Rehab

Physical Therapy  
Speech Therapy  
Occupational Therapy

Our therapists are highly skilled in the treatment and rehabilitation of a wide variety of illnesses and injuries. We have seen dramatic improvements in the quality of life our residents experience after undergoing rehabilitation. In fact, some do so well they are able to return home living life independently. Our goal is to take therapy to a higher level and dedicate ourselves to delivering more than you expect. We embrace the opportunity to serve you and promise to deliver care, compassion, and hope with a personal touch.
